<b>We wanted to...</b>	Change how we work together and embed the principles of co-production in everything we do in order to maximize social value	<b>We are going to...</b>	<b>1.1 Produce a set of core principles that outline and quantify expected standards for working together, early engagement, co-design and collaboration</b> (linked to 2.1). The principles will be applied right across all aspects of partnership working.	Community Southwark – to be agreed by Southwark Council (Commissioning Board) and CCG.	To be presented and discussed at May event and signed off by June 2017.

	Creating more responsive and joined up ways of working using existing structures (such as the Local Care Networks) to harness the power and knowledge of local communities to help reduce the impact of reductions in local authority and NHS resource		<b>1.2 Create procedures to open up access to data across agencies by sharing aggregated, anonymised data</b> to assist service design, funding applications and measurement of outcomes. VCS organisations, where appropriate, will submit data to public sector partners which identifies emerging or increasing need. Protocols for sharing data with Public Health (Joint Strategic Needs Assessment) as one example will agreed.  <i>Community Southwark will enhance its information and resources section on its website to provide easier access to open data sources and data sets that are accessed as part of this initiative.</i>	CCG – (incorporating Southwark Council, Public Health).  Community Southwark to co-ordinate data requests and submissions to avoid duplication etc	July 2017
